Foreign Agriculture

Index to Volume XII—1948

Articles and Authors

JANUARY— Page

INTERNATIONAL ORGANIZATION IN WORLD FOOD CRISIS—— Duncan Wall 3

RURAL-TEACHER TRAINING IN GUATEMALA Lloyd H. Hughes 10

AGRICULTURAL COLLABORATION WITH FOREIGN COUNTRIES—— John V. Hepler 14

JABOTICABA—"GRAPE OF BRAZIL" Henry W. Spielman 18

THE BREAD-GRAIN PICTURE IN EUROPE Leo J. Schaben 20

THE CHICKEN OF TOMORROW (GIFTS OF SCIENCE)—— H. L. Shrader 23

FEBRUARY—

WHEAT—A WORLD SYMBOL Gordon P. Boals 27

MACE FROM GRENADA'S NUTMEGS Charles H. Whitaker 32

EUROPEAN PROGRAMS FOR EXPANDING FARM PRODUCTION—— Lois Bacon, Theodora Mills, Montell Ogdon, and Lazar Volin 34

BAMBOO CULMS FOR INDUSTRY (GIFTS OF SCIENCE)—— F. A. McClure 39

MARCH—

INTERNATIONAL MOVEMENT OF FOODSTUFFS R. L. Harrison 43

COLOMBIA EXPERIMENTS WITH CREDIT IN KIND FOR LIVESTOCK—— Kenneth Wernimont 46

EUROPEAN PROGRAMS FOR EXPANDING AGRICULTURE IN OVERSEAS TERRITORIES Montell Ogdon, Lois Bacon, Mary E. Long, and Russell S. Kifer 49

TREES IN ECUADOR—— Elbert L. Little, Jr. 54

WHERE LACK OF FUEL MEANS FOOD SHORTAGE C. S. Stephanides 60

APRIL— Page

MEAT IN RELATION TO WORLD FOOD PROBLEM Elmer A. Reese 67

SORGHUMS SERVE SALVADORANS FOR FOOD AND FOR FEED—— James M. Watkins 71

WIDER HORIZONS FOR AGRICULTURAL COLLABORATION—— Quincy Ewing 76

MACHINE-TRACTOR STATIONS IN THE SOVIET UNION—— Lazar Volin 80

MAY—

SOYBEANS YESTERDAY AND TODAY—W. J. Morse 91

THE COFFEE-HARVEST TIMETABLE IN LATIN AMERICA—— Mary S. Coiner 96

RUSSIAN GRAIN ON THE INTERNATIONAL SCENE Lazar Volin 98

THE MIDDLE EAST CHALLENGES MODERN AGRICULTRAL TECHNOLOGY— Afif I. Tannous 101

INTERNATIONAL WHEAT AGREEMENT R. L. Gastineau 106

JUNE—

RICE—A WORLD FOOD CROP L. Thelma Willahan 115

TOMATOES FROM A TREE—— E. P. Hume and H. F. Winters 121

MOBILIZING OUR SCIENCE FOR WORLD-WIDE COOPERATION—— C. Reed Hill 123

FINLAND'S AGRICULTURE LOOKS TOWARD RECOVERY—— Eric Englund 126

JULY—

CORN'S ROLE IN FEEDING THE HUNGRY Leo J. Schaben 139

BETTER HEALTH THROUGH AGRICULTURAL COLLABORATION—— Quincy Ewing 146

OUR INCREASING AGRICULTURAL TRADE WITH CUBA—— Harold L. Koeller 149

832332—49

JULY—Continued	Page
SHEEP—MAN'S BEST FRIEND IN GREECE — C. S. Stephanides	153
THE CASHEW NUT IN MOZAMBIQUE — Curtis C. Jordan	156

INDEX

Abacá— Page
import countries of Philippine exports 38
production—
Central American 38
Philippines 38
Africa—
cashew nut, Mozambique. Curtis C. Jordan 156–158
cattail and finger millets, growing conditions and regions, and uses 238
corn—
acreage and production 143
production and export 145
grain requirements 1947–48 compared with 1946–47 exports 27
See also Union of South Africa.
Agrarian—
policy, postwar developments, Mexico. Ana M. Gómez 221–224
reform provisions, Mexico 222–223
Agricultural—
collaboration—
contributes toward better health 146
foreign countries. John V. Hepler 14–17
legislative authorization 123
technical, Washington organization 124–125
wider horizons. Quincy Ewing 76–79
exports, United States to Cuba 150
imports, United States from Cuba 150
machinery, Greece. C. S. Stephanides 250–253
mission(s)—
Colombia 37–38
to foreign countries 17
population redistribution, Mexico 222–224
Rambo honored, Panama 158–159
recovery problems, Finland 132–134
station(s)—
existing in Bolivia, Costa Rica, Cuba, Ecuador, El Salvador, Guatemala, Nicaragua, and Peru 15
program, Latin America 14–16
training problems 169–173
technology challenged by Middle East 101–105
United States trade increasing with Cuba. Harold L. Koeller 149–152
Agriculture—
European programs for expanding in overseas territories. Montell Ogdon, Lois Bacon, Mary E. Long, and Russell S. Kifer 49–53
expansion program—
Belgium 49
Britain 51–53
France 49–51
Netherlands 51
United Kingdom 51–53
Finland looks toward recovery. Eric Englund 126–134
International collaboration expanded 62–63
Italy, U. S. 4-H Club members view 229
prospects for Japanese. W. I. Ladejinsky, Warren H. Leonard, and Mark B. Williamson 240–245
Agriculture—Continued Page
third annual field day, El Salvador 278
training—
Guatemala 171
instructors 171–172
United States, and European recovery. D. A. Fitz-Gerald 259–263
United States Department of, cooperates with Peruvian authorities to study malaria problem 146–147
Air-freight transport 272–275
See also Guatemalan Airlift.
Alemán, President, Agrarian-reform amendment 222
America (n)—
potato introduction 211–216
Republics, trainees sent to United States for agriculture job training 16
Anderson, Elna: Millet Provides Food for Millions 235–239
Argentina—
bread grains, trade agreements with specific countries, 1947–52 276
corn—
flint produced for export 142
production and export 144–145
grain supply 1947–48 compared with 1946–47 exports 28
trade agreement(s)—
coarse grains with specific countries, 1947–52 277
United Kingdom 202
Asia—
bread millet 238
corn, production and export 145
Oceania and, corn acreage and production 143–144
Pacific and, 1947–48 grain requirements compared with 1946–47 exports 27
Australia—
grain supply 1947–8 compared with 1946–47 exports 28
trade agreement, United Kingdom 203–204
wheat export agreement, New Zealand 276

Bacon, Lois: European Programs for Expanding—
Agriculture in Overseas Territories. With Montell Ogdon, Mary E. Long, and Russell S. Kifer 49–53
Farm Production. With Theodora Mills, Montell Ogdon, and Lazar Volin 34–37
Bamboo—
culms for industry. (Gift of Science) F. A. McClure 39
experiments, Mayaguëz Station, Puerto Rico 39
Bananas, United States import from Cuba, 1935–39 average, 1947 149, 150
Barley—
Argentina, trade agreements with specific countries covering coarse grains, 1947–52 277
Finland, length of growing season, breeds, and use 193
Japan—
naked and covered—
acreage and production, average 1941–45 174
growing areas 177–178
See also Coarse grains.
Barnyard millet. *See* Millet, barnyard.
Beans and peas, export requirements, ERP 263
